

# 2019

ONE WEEK CAMPS FOR  
RISING 6TH, 7TH, AND 8TH GRADERS  
(RESIDENTIAL AND COMMUTER OPTIONS)  
[outreach.olemiss.edu/middleschool](http://outreach.olemiss.edu/middleschool)

THE UNIVERSITY OF MISSISSIPPI  
Pre-College Programs

## MIDDLE SCHOOL SUMMER PROGRAMS

June 3 – 7	Engineering	Learn about the engineering field with various projects and hands-on experiences.
June 3 – 7	Mostly Medieval	Learn about Medieval life and culture from archaeologists, historians, and literature professors and participate in hands-on projects that bring the past to life.
June 10 – 14	Anime and Manga Drawing	Practice drawing in the style of Japanese Anime and Manga. The class will focus on figure drawing and creating a scene that is believable using traditional drawing techniques.
June 10 – 14	Career Explorations	Discover the many different ways work can look. Explore the world beyond “Staff Only” doors, and find out from professionals what makes them love the jobs they do.
June 10 – 14	Creative Writing	Develop your unique writing voice, participate in daily writing activities, and go on literary and art field trips to local sites to learn new ways of using the environment for writing inspiration.
June 17 – 21	Jr. Leadership	Learn how to be ready for leadership roles you may encounter in middle school and high school organizations as well as extracurricular activities.
June 17 -21	Engineering	Learn about the engineering field with various projects and hands-on experiences.
June 17 - 21	Makers & Mechanisms: Sculptures and Dioramas (Day Camp)	Create sculptural scenes from movies and stories. Design characters and models of your own imagination. Learn to get creative with found materials.
June 24 – 28	Makers & Mechanisms: Grandpa’s Garage (Day Camp)	Dismantle household appliances to see what’s inside, build simple machines, and much more in this project-based workshop.
July 8 – 12	Rebel Chefs	Be immersed in cooking, baking, and learning about local produce and nutrition. Enjoy visits to local community gardens and markets.
July 8 – 12	Makers & Mechanisms: Chain Reaction (Day Camp)	Causes and effects take many forms in this science-and-engineering-themed day camp.
July 15 – 19	Career Explorations: Health Professions	Learn the many different fields within nursing, explore a variety of other health professions, and get a sneak peek at the daily life of health care providers.
July 15 – 26	Language and Southern Culture for International Students	Improve your academic English skills and learn about the fascinating, unique Southern culture.
July 15 – 19	STEM Camp for Girls	Explore the fields of science, technology, engineering, and mathematics. Each day will focus on a new concentration in these areas.
July 22 – 26	StartUp	Develop an entrepreneurial mindset. Learn skills from the basics of business, to working with customers, to handling money. Engage in hands-on activities to start a real business
July 22 – 26	Video Game Development: An Exploration of Game Design	Learn how game creators develop storylines and characters, different art styles, gaming platforms, and more!
July 22 – 16	STEM Camp for Boys	Explore the fields of science, technology, engineering, and mathematics. Each day will focus on a new concentration in these areas.
