South Korea

Lott Leadership Exchange Program
South Korea
Dates TBA
$650
3 hours of PPL

What you’re learning: The program will focus on four main themes in a comparative context. International diplomacy, economics, governance, and pop culture will drive the course throughout the program. The students will also be required to do coursework and participate in meetings and classes prior to the program’s start date.

What you’re doing: The Lott Leadership Exchange Program is an opportunity exclusively for rising sophomores who display academic and community leadership. There is a selective application process for the program and only 10 students will be chosen to participate in this year’s exchange. You will have the opportunity to work with students from our international partner in South Korea while traveling in the United States and abroad for 4 weeks during the summer. You will also participate in activities related to the program during the Spring 2008 and Fall 2008 terms.

In the past: This program has taken students to Mexico, South Africa, and China for a unique experience with students from those countries.

Program: The cost of the Lott Leadership Exchange Program includes tuition, airfare, meals, housing, program-sponsored excursions, and international health insurance. The cost does not include passport fees and personal spending money.

General office information:
Information regarding financial aid, health insurance, orientation, and the withdrawal and refund policy is online and at the Study Abroad Office. The University reserves the right to adjust the cost should there be a significant fluctuation in the exchange rate. It also reserves the right to cancel any programs due to lack of participation or safety issues.
