Santa Fe, New Mexico
Geological Engineering Design
Field Camp 2
G E 401

** Dates:** August 2 – August 16, 2020
** Credit Hours:** 3
** Instructors:**
  - Dr. Robert M. Holt, Professor of Geology and Geological Engineering
  - Dr. Lance Yarbrough, Assistant Professor of Geology and Geological Engineering
  - Dr. Dennis Powers, Visiting Professor of Geology and Geological Engineering
** Cost:** $1,695 plus tuition
** Application Deadline:** April 9, 2020

www.outreach.olemiss.edu/study_usa/santafe_ge401_20.html

** Students will:**
- Learn advanced applications of geological engineering field instruments and techniques
- Enhance geologic observation and interpretation skills
- Prepare geologic and engineering reports, maps, and figures
- Work on geologic engineering mapping exercises on topics like hydrology, environmental applications, hazards engineering, and more
- Explore the historic and unique town of Santa Fe

** Costs**
Program cost is $1,695 plus tuition (non-resident students who are ineligible for Academic Common Market waivers due to residency will receive a Study USA waiver for the non-resident fee). Included in the cost are housing, group ground transportation, all breakfasts and lunches, selected course materials, tours, and admission fees. Excluded from the cost are the Study USA application fee, tuition, travel expenses to/from New Mexico, evening meals, and personal spending money.

** Travel:**
Students will make their own travel arrangements to and from Santa Fe. Students can fly into either Albuquerque International Sunport (ABQ) or Santa Fe Municipal Airport (SAF). From Albuquerque, students must make arrangements for travel to Santa Fe, either by private vehicle or via Sandia Shuttle. Group ground transportation in Santa Fe will be provided.

*Students who have lost eligibility for ACM due to academic standing will NOT be eligible for the Study USA non-resident fee scholarship.*

** Dates:**
Students will travel to Santa Fe, New Mexico, for arrival on Sunday, August 2, 2020 and depart on Sunday, August 16, 2020.

** Location:**
Students will spend two weeks in and around Santa Fe, New Mexico. Shared accommodations at a local hotel will be provided.

** Who should go?**
This program is for geology and geological engineering majors. Students must have successfully completed GE 301, GEOL 303, GEOL 305, and ENGR 340.**
