

- Visit the National Institutes of Health, the American College of Medical Genetics, and other organizations dealing with health care-related policy, advocacy, and oversight.

Location:

Oxford, MS, and Washington, DC

Who should go?

Sally McDonnell Barksdale Honors College Scholars and non-honors students with a minimum 3.0 GPA. Instructor approval required. This course may interest students studying pre-med, biology, pre-law, pharmacy, public policy leadership, philosophy, or political science.

Dates:

Students will meet on the Oxford campus from January 3-6, 2017 and in Washington, DC from January 8-14, 2017.

Travel:

Students will make their own travel arrangements to and from Washington, DC and meet with the group at the hotel at a designated time. The group will stay at the Capitol Hill Hotel, or similar accommodations.

Costs:

\$1,245 plus tuition. Included in the cost are housing, a group dinner, site admission fees, and tour fees. Study USA application fee, tuition, airfare, most meals, ground transportation, and personal spending money are excluded from the course fee.

Itinerary subject to change. Group travel is included in the course fee.

Washington, D.C. Biomedical Ethics (Honors)

PHIL 328

Credit Hours: 3

Instructors: Dr. Neil Manson, Associate Professor of Philosophy

Dates: January 3-6, 2017 in Oxford, January 8-14, 2017 in Washington, DC

Course Fee: \$1,245 plus tuition

Application

deadline: November 3, 2016

To Register: Go to outreach.olemiss.edu/study_usa/how_to_apply.html

Students will:

- Participate in an intense, two-week course exploring ethical issues in contemporary health care.
- Learn about basic ethical theories and principles at work in making ethical decisions in health care.
- Examine current topics in health care, such as end-of-life decisions, the patient/doctor relationship, genetics, health care reform, and the ethics of research in and use of emerging biotechnologies.
- Meet with senior health policy specialists on Capitol Hill to develop a basic understanding of current topics in health care ethics by questioning experts directly.
